

ANNOUNCING THE 2020 TECHNOLOGY AWARDS PROGRAMS

Dear ASHRAE Member:

Minnesota ASHRAE TECHNOLOGY AWARDS recognize outstanding engineering work by chapter members. Project descriptions are submitted in June. Each description is reviewed and considered by a panel of judges — working HVAC professionals — who select winners in September. Winners are officially recognized at a presentation ceremony that takes place at the Energy Expo.

Chapter award winners are also encouraged to submit their projects next for judging in the ASHRAE Region 6 competition (optional); if successful, they may next compete for a Society level technology award.

Applicants may use the short form for the Chapter and Regional programs, but must use the full Society Technology Award form for the Society program. A copy of either application form can be obtained from the Society web site: <http://www.ashrae.org/membership-conferences/honors--awards/technology-awards-program> [*Download form(s) under "Resources" heading at bottom of screen.*]

Please note the following submission schedule for the awards:

- **The deadline for submittals is June 30, 2020**
- **Judging will be completed by September 1, 2020**
- **Awards will be presented at the Energy Expo**

We know that, over the years, many members have failed to enter their great projects into these Awards Programs. As a result, they have missed the opportunity to tell the world about their outstanding accomplishments. In addition, they have missed the opportunity to show their clients that they have indeed retained the services of an engineer who is recognized by his peers as one who practices innovation and creativity as well as one who provides an exemplary product.

Don't procrastinate! Do the necessary paperwork and submit your awards application as soon as possible.

For questions, or if you would be interested in participating as a judge, email technology@illinoisashrae.org.

Please mail all Award submittals to:

Adam Niederloh
